TECHNICAL EXPERIENCE

Current Course Project

- Developed a C++ console application using object-oriented programming.
- Implemented multiple classes, functions, and user input validation.
- Used Git and GitHub for version control using commits, branches, and pull requests.
- Tested, debugged, and refined the application through iterative development.
- Created technical documentation and a project demonstration.

PROJECTS

Untitled Goose Chase

This program is a short text-based Dungeons and Dragons adventure. It has fifteen total endings, some of which are consistent, some of which will change based on a randomizer meant to mimic rolling a D20. The user can play through a story giving each playthrough a different name, they can view the playthroughs they have already completed, and clear the history when they want to start fresh.

Technologies: C++, Visual Studio, Git, GitHub
